LOGESHVARAN N

SR. SYSTEM ENGINEER | IT INFRASTRUCTURE & SYSTEMS ADMINISTRATION

Chennai, India | +91 9443355021 | logeshvaranit@gmail.com | LinkedIn Profile

PROFESSIONAL SUMMARY

Result-oriented Senior System Engineer with 7+ years of hands-on experience managing and optimizing enterprise IT infrastructure. Proven success in reducing system downtime by implementing secure firewall policies (Fortigate/SonicWall) and automating server operations via PowerShell. Strong background in Hyper-V virtualization, cloud backup (AWS S3), database management, and enterprise server migration. Adept at enhancing cybersecurity posture, network security, and disaster recovery readiness for mid-to-large organizations.

CORE TECHNICAL SKILLS

Systems Administration:	Windows Server (Active Directory, GPO, DNS, DHCP, WSUS, NPS), Linux Administration
Network & Security:	FortiGate & SonicWall Firewalls, Network Architecture, VPNs, NAT, Security Hardening, Nginx
Cloud & Virtualization:	AWS (S3 Cloud Backup, EC2), Hyper-V Virtualization (PEIMES), Disaster Recovery
Storage & Databases:	QNAP & Synology NAS, DELL SAN Storage, iSCSI, SSMS (SQL Server), MySQL
Automation & Tools:	PowerShell Scripting, Batch Scripting, Task Scheduler, SVN, Zimbra & Netcore Mail Servers

KEY ENTERPRISE PROJECTS

• **PEIMES Hyper-V & Infrastructure Deployment:** Executed end-to-end setup of 4 VMs (Windows & Linux PROD/UAT) with switch-to-server connectivity, SAN (iSCSI) integration, local NAS backups, and secondary AWS S3 cloud archiving.

• **Cybersecurity & Vulnerability Remediation Initiative:** Mitigated critical flaws (EternalBlue, Zero Logon, SMB shares), deployed EDR, cleared event logs, restricted public ports (RDP, FTP, Telnet), and upgraded TLS/cipher protocols.

• **SonicWall to FortiGate 101F Firewall Migration:** Conducted asset inventory and feature mapping to migrate from TZ300 to FortiGate 101F, enabling advanced IPS, web filtering, antivirus, and centralized management via FortiManager.

• **Enterprise Email Migration (Zimbra to Netcore):** Transitioned mail infrastructure from Zimbra to Netcore (Ubuntu) with a Rocky Linux archive server, configuring POP3/IMAP/SMTP, DNS, MX, SPF, DKIM, DMARC, and Outlook mappings.

• **Workflow Automation & Nginx Web Deployment:** Automated daily file management using batch scripts and Task Scheduler (saving 10% daily time). Deployed Nginx web servers, custom domain bindings, SSL certificates, and NAT rules.

PROFESSIONAL EXPERIENCE

Senior System Engineer | **Mahaveer Finance India Limited (Chennai)** — **October 2023 – Present**

- Managed Windows Server infrastructure (GPOs, user/group accounts, DNS, DHCP, NPS, WSUS, Windows Backup) and Hyper-V virtualization across 25+ VMs with Hyper-V Replica for high availability.
- Administered enterprise storage solutions including QNAP NAS, DELL SAN storage, SAN snapshots, iSCSI, and Fibre Channel.
- Developed PowerShell scripts to automate routine operations, reducing manual intervention by 80%.
- Performed database administration tasks including SSMS backup/restore operations, user access provisioning, and MySQL server configurations.

Junior System Engineer | **Spl Infrastructure (Chennai)** — **July 2022 – October 2023**

- Administered Windows Server environments (2019), Active Directory, DNS, DHCP, IIS applications, and local storage/backups.
- Deployed and managed FortiGate firewall rules, routing, SSL VPN, web filter policies, and Zimbra email hosting servers.

Senior System Administrator | **Mediscope Global Services (Chennai)** — **August 2018 – May 2022**

- Performed OS installations, domain configurations, endpoint troubleshooting, daily server/firewall backups, and Prohance application monitoring.

EDUCATION & ACADEMIC RESOURCE PERSON

B.E. in Computer Science Engineering – Gojan School Of Business And Technology — **2021 – 2024**

Diploma in Computer Science Engineering – P.T. Lee Chengalvaraya Naicker Polytechnic College — **2014 – 2017**

Resource Person / Speaker – Delivered hands-on technical workshop sessions on Hardware, Networking, Hyper-V, and AWS Cloud Computing at P.T. Lee C.N. Polytechnic College (IIC – ISTE). — **Recent Workshop**

CERTIFICATIONS

- Oracle Cloud Infrastructure Multicloud Architect Professional
- Cisco Certified Network Associate (CCNA)
- Microsoft Certified Solutions Expert (MCSE)
- AWS Knowledge: Architecting in AWS
- Fortinet FortiGate 7.4 Operator
- Aviatrix Multicloud Network Associate (ACE)
- GitHub Foundations
